

# Social interactions tracking log

Use this tracking log to keep track of social interactions difficulties and/or improvements over time.

Date	Location	Communication partners	Difficulties and/or improvements	Notes
12/21/17	Holiday party	My immediate family	I discussed the limitations of my cochlear implant with my family before the party, and this helped them remember my requests.	Next family gathering, I want to try to use a mini mic with my grandson to try to hear him better.
